

# Housing & Community Development Committee

November 16, 2021

# Citizen Participation Plan

Changes made to reflect:

- New Committee structures (new Housing & Community Development and Social Services Committee replacing existing HCDA, MHB, HHC)
- Updated draft Action Plan process of allocating funding by % at goal level, using estimated total grant. This was piloted successfully in 2021.

The definition of what triggers a substantial amendment remains unchanged.

- Approvals are based on the estimated grant amount and can be made subject to the final grant being at or above the estimated amount.
