Scope of Work

Keep Evanston Beautiful has in the past directed our education efforts primarily towards the elementary schools in Evanston. The goal for this grant would be to expand our efforts to the high school.

Evanston Township High School (E.T.H.S.) houses 2,500 students and several hundred teachers and support staff in a 3 story building in central Evanston. There is currently very little recycling, except for office paper on a voluntary basis.

K.E.B in conjunction with E.T.H.S.'s Operations and Purchasing Departments, headed by George Dellorto, proposes to set up a whole-school recycling program, expanding the collection of office paper, and adding the bottles and cans from food service areas. The organization will provide collection containers for paper and bottles and cans, plus an education program targeting students, teachers, administrators and custodial staff.

Collection of the new materials to be recycled (bottles, cans and all office paper) and material already being recycled (some newspaper, magazines and office paper), is currently, and will continue to be, provided by the City of Evanston.

A second project which is aimed at educating the residents of Evanston is the 5th printing of K.E.B.'s Directory of Recycling Alternatives. We have solicited support for the printing of enough copies to distribute them to every household in Evanston. We are seeking grant funds to aid in the distribution to 14,550 single family homes and another 5,000 condominium and co-op apartment units.

Attention: Stephanie L. Covall - Pinnix

Dear Ms. Pinnix:

Thank you for providing an important environmental service to our community. We are pleased to have made a grant through the Wal-Mart Foundation for \$3,000.00 to help with your community's recycling and environmental efforts.

The check will be sent to Wal-Mart Store No. 6444 in Evanston, IL. The Store Manager, Bob Miller, will contact you to arrange presentation of the grant.

Enclosed is a press release format for announcing the donation. Please feel free to use any of the information you wish.

In order to help us track the impact we are making in these Wal-Mart communities, we ask that you complete the program evaluation form provided and return it to us at your earliest convenience.

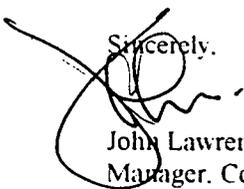

Our long-term effort has always been to help support community recycling and environmental programs. We believe the best way to promote environmental programs and recycling is through community projects such as yours.

In 1989 in response to letters from our customers expressing concern for the environment, Wal-Mart took up the challenge to do what we could to make a positive difference in the environment in the hometowns we serve.

With help from our manufacturing partners, our store associates and our customers, we have made progress. Together, we are creating environmental awareness. Together, we are taking positive environmental action in every Wal-Mart store and community. And together, we are educating our youth.

At Wal-Mart we believe that what we all do for the environment can make a world of difference. It's a privilege to work with organizations like yours that share the same commitment.

Sincerely,

John Lawrence
